Damocles

Birdmask

Gut the animals, they won't feel a thing
You're all pigs in shit
You should just call your mothers out
They'd be so proud of you
As you celebrate human suffering
You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life
We are privileged, we are all obliged
Just go fuck yourself, I am your sword of Damocles

Get down on your knees
Will you have mercy on us please
How did we all fall down
You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life
You live like animals, now it's your turn
We take to the skies as you bury yourself
