

# Damocles

## Birdmask

Gut the animals, they won't feel a thing  
You're all pigs in shit  
You should just call your mothers out  
They'd be so proud of you  
As you celebrate human suffering  
You make it obvious  
Should we hang them high up under the gallows  
Are we ever going to learn  
Are you ever going to value this life  
We are privileged, we are all obliged  
Just go fuck yourself, I am your sword of Damocles

Get down on your knees  
Will you have mercy on us please  
How did we all fall down  
You make it obvious  
Should we hang them high up under the gallows  
Are we ever going to learn  
Are you ever going to value this life  
You live like animals, now it's your turn  
We take to the skies as you bury yourself
