How I Wish I Were Here

Eric Stuart Band

Verse 1:
I kinda remind me of someone I knew
A strong willed man with a purpose, determined and true
The memories fade with time
And life can play tricks on your mind
I've left myself behind, how I wish I were here

I think'd I know just what to do;
I was good at taking charge and followin' through
Back life can wear you down and turn you world around
I've looked, but never found
How I wish I were here

Chorus:
Hey man, do you remember me?
I was known as the spirit runnin' wild and free
And there was nothing that could hold me back at all
So if you see me around, please tell me to call
How I wish I were here

Verse 2:
I wonder what I would say here today?
Seeing myself in the state of disarray
Cause when someone else pulls the strings,
And smiles when they clips your wings
You can lose your faith in things
How I wish I were here

Chorus:
Hey man do you remember me?
I was known as the spirit runnin' wild and free
And there was nothing that could hold me back at all
So if you see me around, please tell me to call
How I wish I were here

Verse 3:
Cause when you give up on all your dreams,
And walk the safe road of in-betweens
You get stuck in the same old scene

How I wish I were here

Chorus:
Hey man do you remember me?
I was known as the spirit runnin' wild and free
And there was nothing that could hold me back at all
So if you see me around, please tell me to call
How I wish I were here

Hey man do you remember me?
How I wish I were here

How I wish I were here
