

Beneath the Mask (feat. GameboyJones)

Lollia & Sleeping Forest

Mask off
I'm ripping the mask off
My awakening was sick
Much more than a bad cough
With my back against the wall
I refuse that somebody's killing me
I gained abilities
Now I'm showing off my identity
Black coat, red gloves, plus there's Arsene
Burning down this prison
Like good riddance
I'm the warden
Fighting for my life inside these battles
This is war then
Don't know who I am inside this body I feel foreign
Sent off to Tokyo
That's the place that I go
Labeled with assault
People probably think I'm psycho
But what do I know
Started bonding all these ties
These are all the things that started out
Inside persona 5

I'm a shapeshifter
At Poe's masquerade
Hiding both face and mind
All free for you to draw
I'm a shapeshifter
What else should I be?
Please don't take off my mask
Revealing dark

Oh snap
What's that?
I'm the catalyst
Call me what you want inside this story
The Protagonist
Gotta stay real focused

Don't wanna be late for class again
I'm adamant
Bout keeping my grades up
Till I'm a graduate
Scrolling through my phone
I got a new app
What did I find
Metaverse?
Man I tried deleting this thing like 9
times
Igor said to use it
Don't be stupid
Better do your part
So we joined together
And we formed the phantom thieves of hearts
We abducted
The hearts of all the corrupted
Don't know if it's right or wrong
But we know its some kind of justice
Destructive to all the puppets
Who's acts are very disgusting
Can't sit back and just do nothing
Move the joystick push some buttons
Cmon

I'm a shapeshifter
At Poe's masquerade
Hiding both face and mind
All free for you to draw
I'm a shapeshifter
At Poe's masquerade
Hiding both face and mind
All free for you to draw
I'm a shapeshifter
Chained down to my core
Please don't take off my mask
My place to hide
I can't tell you
How to see me
Just a cage of bones
There's nothing inside
Will it unleash(tarnish) me?
Burning down the walls
Is there a way
For me to break?

I'm a shapeshifter
At Poe's masquerade
Hiding both face and mind
All free for you to draw
I'm a shapeshifter
Have no face to show
Please don't take off my mask
My disguise
