

# Talk Show

## Bracket

The whole world is watching me  
As I light up the TV screen  
My life a parade  
But Ie got it made  
I hope everyone will seeI want my ratings to go up  
I hope you all wish me luck  
Il act like I care  
About your welfare  
And Il pretend Il stay in touchI want to be on your good side  
Ie got nowhere else to hide  
Everything that you hear  
May not be sincere  
At least my voice is amplifiedI think my credibility has gone away  
The colors on your television will turn gray  
Il make a living while i exploit everyone  
I never thought this way of life would be so fun
