

# Win The Race

## Modern Talking

We have a dream, you'll win tonight  
Take the chance, take the chance, God is on your side  
We pray for you, you're like a hurricane  
You can win, you can win, you can win the game  
Try the impossible, we want a miracle  
And there are millions fans around  
Our dream is free, we want the victory  
The hero's back in town  
Oh, come on, we, we can win the race  
Oh, he fights just face to face  
Oh see, he will win the game  
Again, again, again  
Oh, come on, we, we can win the race  
Oh, he, he will take the chance  
Oh, only the strong survive  
We'll stay by your side  
We have a dream, we don't give up  
We can win, we can win, right from the start  
The price is high, time is on your side  
Take the chance, take the chance, you'll win tonight  
I know you are the best, you can beat the rest  
We'll never let you down  
You'll have the energy, we want the victory  
The hero is back in town
