

The Way I Feel

Los Lonely Boys

I can't believe where I'm at today
Lord, I'm glad to be alive
It's been so long since I felt this strong
Nothing's gonna get me down Say what you want, do what you will
But that won't change the way I feel How can you see if there's good in me
If you never even try?
Give me some time, I might change your mind
But if I don't, well, that's alright Say what you want, do what you will
But that won't change the way I feel
The way I feel
No, that won't change the way I feel Oh, I can't save the world but I'm gonna try
Don't you wanna change this world?
Oh, we're running out of time Say what you want, do what you will
But that won't change the way I
But that won't change the way I
Say what you want, do what you will
But that won't change the way I feel
