

# A Million to One

## Halloween

Born into somewhere unseen and unknown  
Just like a wonder so small and alone Take me away into your innocent dreams  
Maybe I'd see what it all means A million to one you will lose it all  
A million to one you'll be fallin'  
Down to where I am an unholy man  
A million to one you'll be fallin' It's so sad and so true but what can I do?  
Only a few years then it's up to you To care for yourself I hope I gave good advice  
For all your life how to survive A million to one you will lose it all  
A million to one you'll be fallin'  
Down to where I am an unholy man  
A million to one you'll be fallin'  
Ohh aah! A million to one you will lose it all  
A million to one you'll be fallin'  
Down to where I am an unholy man  
A million to one you'll be fallin'
