Low Key

Tweedy

I wanna let it be known
Ever since I was young
I've always been a refugee
Always very high strung
I've always been low key
Just let the record showNo I won't jump for joy, I don't
If I get excited nobody knows (nobody knows)
ohh (ohh) but I'm gonna love you the same
I'll always be your fool
And when it looks like I don't care
I'm just playing it coolI know, I won't jump for joy, I don't
If I get excited, no one will know (no one will know)
ohh (ohh)I've always been low key
Oh you know meWoo ohh ohh
Woo ohh ohh
Woo ohh ohhI've always been low key
You know meNo I won't jump for joy, I don't
If I get excited nobody knows (nobody knows)
ohh (ohh) but I'm gonna love you the same
I'll always be your fool
And when it looks like I don't care
I'm just playing it coolNo, I won't jump for joy, I don't
When I get excited, nobody knows
