

# Quiet, The Winter Harbor

## Mazzy Star

Well you're still walking  
Around the block  
You had a long time  
To think who you are  
You look so sad  
Well, so you think  
You say, "Come over"  
And you're still a star  
You're like a villain  
In some old film  
Walking in the dark  
In somebody's room  
Save me  
'Cause I'm still sinking  
We've got a harbor  
Close to the shore  
Simple  
Your thoughts are swimming  
I'd like to see them  
When you're alone  
You've got the same smile  
You had before  
It's just laying down  
Than what I adore  
Save me  
'Cause I'm still sinking  
We've got a heartburn  
Close to the shore
