

# Self Defense

## Dilated Peoples

Advisory - the following lyrics contain explicit language:

This is self defense  
This is self defense  
This is self defense  
This is self defense I think ya better let it go  
You need attention? I send medical  
Basically you're tryin' to harm me, you're crazy  
Musically I'm blazin', physically I'm gracy  
Triangle choke ya  
And what the fuck could have provoked ya?  
We don't know each other kid and I did not insult ya  
Don't make me feed the fish, feed the trees or feed the vultures I don't know stones, I throw statues and  
sculptures  
I block flows with strikes and strikes with blows  
I slice flows with my mic at shows  
I counterattack to turn the tables in an instant  
Move out of range and step into close distance  
Resistance, relax with less friction  
Leverage and technique bring jokes and submissions  
You got heart, you plan to make it happen But none of my family are chumps or never have been  
Respect mine, protect myself at all times  
Build twice next time before you cross the line  
I guess this is what you call a turn of events  
And the best offense is a good defense Yo, you wanna hit us? We can hit back  
If you talk that talk, you got's to live that  
(This is self defense)  
Whenever you front out, you gonna get back  
Self defense, you wish you never did that  
(This is self defense) Yo, you wanna hit us? We can hit back  
If you talk that talk, you got's to live that  
(This is self defense)  
Whenever you front out, you gonna get back  
Self defense, you wish you never did that

(This is self defense)Yo, stay ready for the worst, paranoid, straight, smart  
Enemies hit ya where you think you're safe  
(Self defense)  
I cut my fingerprints with razor blades  
I'm in the cut, the kind you don't recognize with shades  
Tattoos, learn two tricks  
Only thing between me and the borders and the straight face  
Answers to questions, four eye contact  
This confrontation ain't physical but still combatLeave ya'self left with options to choose  
The last line of defense from my crew, dope rules?  
Psychic, precise, right and exact for songs  
Only time we've been wrong is when we thought, we were wrong  
The science are format's own conclusive  
But peace first and war, last, these words are crucial  
Conflict resolved but to those that want to brawl  
Pain is inevitable, sufferin' is optionalAlso droppin' the ball ain't reccommended  
When life or death decisions are made within seconds  
Of course we make the right ones, strategically through  
Self defense but not by myself, BabuWe can hit back  
If you talk that talk, you got's to live that  
(This is self defense)  
Whenever you front out, you gonna get back  
Self defense, you wish you never did that  
(This is self defense)You wanna hit us? We can hit back  
If you talk that talk, you got's to live that  
(This is self defense)  
Whenever you front out, you gonna get back  
Self defense, you wish you never did that  
(This is self defense)Self defense is a must  
Self defense is a must  
Self defense is a must  
...
