

Better Be Country

Bubba Sparxxx

It don't matter if she's from up top
Listens to rock and roll, or hip hop
It's cool if she's smokin' hot
But hey, she better be country
Country is country wild, like the song said
I know a girl in Arizona with some long legs
She looks like Pocahontas on steroids
And she wild, wears country fresh yeah boy
I know another one in Montana, that Hannah
And she's totally into it, mind grammar
I got another one in West Hollywood
I love her though, she acts more Dollywood
Country is a state of mind and a state of heart
And they don't keep that locked inside a trailer park
'Cause every girl in the country ain't true to it
You wanna act city-fied then move to it
I know one in Rochester
You should see her booty, man
God blessed her (Hallelujah!)
And she cooks like she oughtta be from Mayking
She even puts grease with the eggs and bacon
It don't matter if she's from up top
Listens to rock and roll, or hip hop
It's cool if she's smokin' hot
But hey, she better be country
Even if she's from out west
Or smack dab in the middle of the GPS
And I love a hot Southern mess
But still, she better be country
She better be country
She better be country
She better be country
She better be country
She likes Kings of Leon and Drake
And every summer she's on the lake
Oh, somebody's boat gettin' tanned up
In a Instagram pic holdin' up a can up
Cold beverage, nope, don't stress it
Try to give her orders, she'll learn you your lesson

This ain't bye-bye, she could be from Hawaii
Or Tennesse or anywhere in between
She's a country boy's dream in a two piece
Becomes a one piece when she has a few drinks
But don't get no disrespectful idea
That country girl will leave you layin' right there
It don't matter if she's from up top
Listens to rock and roll, or hip hop
It's cool if she's smokin' hot
But hey, she better be country
Even if she's from out west
Or smack dab in the middle of the GPS
And I love a hot Southern mess
But still, she better be country
She better be country
She better be country
She better be country
She better be country
I see the beauty in every woman
But it ain't nothing like a country woman
I know country ain't only Southern
The whole world is covered
With beautiful daughters of working folks
That raise them right whether rich or broke
And I got married, but I really hope
You can find you one of those, let's go
It don't matter if she's from up top
Listens to rock and roll, or hip hop
It's cool if she's smokin' hot
But hey, she better be country
Even if she's from out west
Or smack dab in the middle of the GPS
And I love a hot Southern mess
But still, she better be country
She better be country
She better be country
She better be country
She better be country
