Male Pattern Impotence

Belvedere

it tries so hard, i'll give it that, it's painful to watch
i grease the bear the gumption's there but the job's always botched
what's it now i just don't know the fun has disappeared
what's the deal i get the fuel but it still seems weirdno confidence
it don't make sensehere's a scence try to avoid, join me if you will
it's going smooth, i'm having fun but something kills
i'm not dumb, i figure out it's male impotence
i don't know just where it starts, it makes no senseno confidence
it don't make sensewhy this now i don't know how
why this now i don't know how
