

Disconnected

Pat Benatar

The hammer lands, the verdict stands
The walls come crumblin' down
The color code, rule of thumb
Shadows on the sun
Can you tell me, where it's really at?
All around the world tonight
People watchin', people waitin'
All around the world tonight
People feelin' - Disconnected
(Somebody better plug me in)The jukebox plays a toxic waltz
A factory belches steam
A sidewalk ends in baby steps &
A widow maker screams
(And it sounds like this)
Hear her call your nameAll around the world tonight
People watchin', people waitin'
All around the world tonight
People feelin' - DisconnectedThe page is turned, a city burned
The whole world falls apart
The plug is pulled, truth escapes
The space between our hearts
Space between our hearts
Space between our hearts
