

Arabian Disco (Demo Version)

Faith No More

Has it been so long
Do you think we know
Do you think we care
Die, for the here and now
Do you remember why
Do you remember how Face, out
Stick your chest, out
Stomach, in
That's right Do you really know
Where the harems go
In the desert snow, hail
An oasis dream doesn't really seem
To mean a thing when you're out, cold So, hands, up
Put your guards, up
Feet, down
Up, down
Forward, march
Left, right
Cold, cold
I feel cold
