You All Dat

Baha Men

I was up with the moon, and down with the stars
And the party was carrying on (party!)
All the girls were outside, kicking sand, sipping on mohitos (ooh!)
And all the boys were standing around, dancing the congo (hey-yeah-hey)
And then, woah, there she was, I think she's looking fine (no way)
Hey! I know what I see when I see it (right)
Watch me go down there and do my talk
Damn it, girl, I just got something to say
Tell me will it be okay if I say
You got it! You all dat! You got it! Baby, you tow me away
All the girls started laughing at me (a ha ha ha ha ha!)
I had to make a quick retreat, get ready for round two (bong)
'Cause my love is like a bomb, about to explode
And only she can light my fuel
So I'm walking (woah), I'm talking (way)
Damn, girl, I just got something to say
Tell me will it be okay if I say
You got it! You all dat! You got it! Baby, you tow me away
Dance with men, you dance with moves
So I dropped to my knees and prayed (yeah)
Please, God, just one time, give me a night of ecstasy just for two
Until I opened my eyes and to my surprise
My goddess of love was standing there, and she says
Yeah, baby, got something to tell?
Well, c'mon, hurry up, I don't got all day
You got the hots for me, I can see
But you gotta give it all you got to get me
So c'mon, c'mon, what you got? Give it to me
If not, you're not one of the guys who wanna do me, huh
I'll show you how it's done
You gotta be bold, or you ain't gonna get none
Tell me will it be okay if I say
You got it! You all dat! You got it! Baby, you tow me away
I know your head is for the time of day
I'm one, since you won, after you say what you wanna say
Tick-tock, the time is ticking
I'm under pressure, I'm nervous - Chicken
Hold up, girl, listen up, you're my dope
You're all dat, you definately got it, girl

What you want? What you need?
What I gotta say? Give me your hand, I'm gonna take you away - Okay
You got it! Baby, you tow me away
I was up with the moon, and down with the stars
And me and my baby was going to our own party
