Again

Rock Kills Kid

I've waited a long time To look into your eyes Again for the first time

I know, yes, I know that You'll come running back to me Maybe someday I do believe

You'll come running back to me, I believeYour heart is mine

I've had it a long time

Even through this time

I know, yes, I know that You'll come running back to me

Maybe someday, I do believe

You'll come running back to me, I believeI speak to you in my head every night

Making you up in my head

I think I can make you understand again Maybe somedayI've waited a long time

To look into your eyes

Again for the first time

I know, yes I know, that You'll come running back to me

Maybe someday I do believe

You'll come running back to me, I believeYou'll come running to me, to me

You'll come running to me, to me

You'll come running back to me, I believe

You'll come running to me, to me, to me
