

Only Rain

Safe To Say

Follow me down to the darkest parts where I
Lose self control, where I lose sight of me
Unwindingly
Await a feeling that you can't help but shake
Something fleeting that makes us feel forsaken and
I'm taking itI'm taking it all away
Stay outside because it's only rain
Stay outside because it'sI've heard it once, I've heard it all before (2x)I'm a liar, I'm a hero
Lovesick baby call me zero a little more
I've heard it once, I've heard it all beforeAnd let it all fall through the cracks
Time and time againLet down your hair, It's only rain (2x)I'm taking it all away
