Turn It Up

Kelly Rowland

I can tear the whole world down
I can tear the whole world down
I guess its bad enough im drinking til I smile
I can tear the whole world down
I can tear the whole world down
I guess its sad enough im thinking of your childI can tell her, I could tell her that you said you loved me
I can tell her that you're so unhappy
Instead I'm sipping till I'm empty
Empty, im sipping til im empty
I can tell her everything you told me
I can make her feel just like me
Instead I'm sipping till I'm empty
Empty, im sipping til im emptyTurn it up, turn it up now
Buy another round
Turn it up, turn it up now
Shots all around
Turn it up, turn it up now
Buy another round
Turn it up, turn it up now
Shots going downTurn it up, turn it, turn it up
Turn it up, turn it, turn it up
Turn it up, turn it, turn it up
Turn it up, turn it upI can tell the whole world now
I can tell the whole world now
That I had no idea that you were loving her
I should tell your old girl now
I should tell your old girl now
Just to let her know how bad its gonna hurt
(And you know its gonna hurt so bad)I can tell her, I could tell her that you said you loved me
I can tell her that you're so unhappy
Instead I'm sipping till I'm empty
Empty, im sipping til im empty
I can tell her everything you told me
I can make her feel just like me
Instead I'm sipping till I'm empty
Empty, im sipping til im emptyTurn it up, turn it up now
Buy another round
Turn it up, turn it up now
Shots all around

Turn it up, turn it up now
Buy another round
Turn it up, turn it up now
Shots going downTurn it up, turn it, turn it up
Turn it up, turn it, turn it up
Turn it up, turn it, turn it up
Turn it up, turn it upWhat goes around, comes around, goes around
Buy another round, Buy another round
What goes around, comes around, goes around
Buy another round, Buy another round
What goes around, comes around, goes around
Buy another round, Buy another round
What goes around, comes around, goes around
Buy another round, Buy another roundTurn it up, turn it up
Turn it up now, shots all around
Turn it up, turn it up
Turn it up now, shots going downTurn it up, turn it, turn it up
Turn it up now, buy another round
Turn it up, turn it, turn it up
Turn it up now, shots going downTurn it up, turn it, turn it up
Turn it up now, buy another round
Turn it up, turn it, turn it up
Turn it up now, shots going down
