

# Private Party

## Evren Furtuna

Late night, fire bright  
body yearning, lips bite  
unleash your wildest dreams  
it's time to explore each other tonight  
candles lit, wine sip  
it's time to let your hair down  
can't you see baby  
your body is what I want  
don't need no money  
'cause VIP is yours only  
let me give you ecstasy  
and the only thing that's on my mind  
I wanna take my time  
and take you to new heights  
and let you fly  
this is your party  
girl let me show you  
you can yell if you want to  
this is just for you  
just lay right here  
this is what it's meant to be  
sexing you from a to z  
on top of you  
baby please  
baby just slow it down  
you're getting excited  
I'm your four-course meal  
and you're ready to take a bite  
if you only knew  
we got all night  
just lay back  
first Imma start by kissing your neck  
caressing you down  
from front to back  
making you hot  
and making you sweat  
this is your party  
and I'm gonna put it on you  
and I won't stop until we through  
this is what I do  
just lay right here  
and wait for me  
I'm making you weak  
in your knees  
it's your private party

you'll never sleep
