

# Just Can't Go On

## No Question

We've been through so much, felt so much pain  
When I'm going through fire, your love's like the rain  
That's why I need you and love you so much  
Come hold me, console me, girl, I need your touch  
I never imagine a love so unique  
I can hear angels each time you speak  
It feels like heaven, this piece in my life  
And when you are here, you make things alright  
And I feel your love running through my veins  
There is no life without you, do you feel the same?  
Life is too short so let's not play games  
Nothing else mattered, girl, before you came  
Say that you love me, swear that you care  
Promise forever you'll always be there  
Come on with me, let's journey on  
Without you with me, girl, I just can't go on  
Now this might sound crazy, it just might sound strange  
When I'm alone, calling your name  
I go through withdrawal when you're away  
You are my lifeline, I need to be saved  
Send me an angel straight from above  
Who's wise as a serpent, soft as a dove  
Sometimes I fall short and I get so weak  
But you saw my faults and filled my needs  
Whenever you're scared and need someone near  
I'm right beside you there's no need to fear  
I'll be your shoulder whenever you cry  
Without you with me, girl, I'll surely die  
Say that you love me, swear that you care  
Promise forever you'll always be there  
Come on with me, let's journey on  
Without you with me, girl I just can't go on  
We might have our strong days, we might even fight  
But we struggled for love and every thing's alright  
Whatever it is, the weather, the storms  
Without you with me, I just can't, I just can't go on  
Say that you love me, swear that you care  
Promise forever you'll always be there  
Come on with me, let's journey on

Without you with me, girl I just can't go on  
Say that you love me, swear that you care  
Promise forever you'll always be there  
Come on with me, let's journey on  
Without you with me, girl I just can't go on  
Say that you love me, swear that you care  
Promise forever you'll always be there  
Come on with me, let's journey on  
Without you with me, girl, I just can't go on  
Say that you love me, swear that you care
