Talkin 'bout Us

Colby O'donis

Can't keep my hands from touchin on every part of you
their aint no watch cold enough to cool my tempature
she like my muffler
thats what im showin her
the way im killin it shauty
should call it cola
You and i got a story like nothing i ever heard in the whole world
you and i got a story and its like the fairytales are trying to imatate it
2x
What they talkin bout
who they talkin bout
girl they talkin bout us
(girl their talkin bout us)
every movie thats got an R rated sex scene
every song that your momma played at her wedding
every novel ever writtin that ends with two people fallin in love
1x
what they talkin bout
who they talkin bout
girl they talkin bout us
(girl their talkin bout us)
their anit a girl that could love me the way that you do
i been with enough of um to know that its true
and when you throw the wall
i love the way that you fight
no no blows unless its to get my head right
you and i got a story like nothing i ever heard in the whole world
you and i got a story and its like the fairytales are trying to imatate it
2x
what they talkin bout
who they talkin bout
girl they talkin bout us
(girl their talkin bout us)

every movie thats got an R rated sex scene
every song that your momma played at her wedding
every novel ever writtin that ends with two people fallin in love
what they talkin bout
girl they talking bout us

you you they all up on me me
they don't give us space space every where we be be
i said they all up on you you
they all up on me me
they don't give us space space every where we be be be be be be
every where we be be be
they all up on you you you
they all up on me me me
2x
what they talkin bout
who they talkin bout
girl they talkin bout us
(girl their talkin bout us)
every movie thats got an R rated sex scene
every song that your momma played at her wedding
every novel ever writtin that ends with two people fallin in love
what they talkin bout
girl they talking bout us
2x
what they talkin bout
who they talkin bout
girl they talkin bout us
(girl their talkin bout us)
every movie thats got an R rated sex scene
every song that your momma played at her wedding
every novel ever writtin that ends with two people fallin in love
what they talkin bout
girl they talking bout us
