

Somewhere

Aretha Franklin

There's a place for us
Somewhere there is a place for us
Peace and quiet and open air
It waits for us somewhere There is a time for us
I know that there is a time for us
Time together with just a little bit of time to spare
The time to learn, oh, time to care Somewhere
We'll find a new, a new way of living
We'll find a way of forgiving
Somewhere There is, there is a place for us
I know, I know, I know, I know, I know
There is a place for us
