

# Says She Loves Me

## Aer

She always says she loves me when we're drinkin'  
    Won't admit it but it's true  
    I think I've had enough of this one  
So baby what's your name where you from what's good with you  
    She always says she loves me when we're drinkin'  
    Won't admit it but it's true  
    I think I've had enough of this one  
So baby what's your name where you from what's good with youWhen she's drunk she calls me a punk  
    She blow my phone up, she don't know what's up  
    When she drink that Jack  
    She won't call back, and when she off that rum  
    She acts so dumb  
    She tells me grow up! I say you know what?  
    She won't let me finish, she starts to go nuts  
    Stop throwing stuff, time to own up  
    I'm so done baby I'm so done  
All I need to do is turn my back, and she'll be gone for good  
    Finished packing my bags, going where I know I should  
    It's only right for me to move on to what's next  
But when she texts me with those three words it gets me likeShe always says she loves me when we're drinkin'  
    Won't admit it but it's true  
    I think I've had enough of this one  
So baby what's your name where you from what's good with you  
    She always says she loves me when we're drinkin'  
    Won't admit it but it's true  
    I think I've had enough of this one  
So baby what's your name where you from what's good with youShe's gotta quit showing off to all of her  
    friends  
    And go pick someone else who can handle her shit  
    I'm so sick of this and I can't pretend  
    But I'll be stuck with this girl like wet cement, yeah  
    I don't want her following in my footsteps  
        But I think my shadow needs it  
    Despite her good side, and some good sex  
        I'd rather go through amnesia  
        Like forget all about it  
    No reason to always get so dramatic  
        I'm more manual, she automatic  
        Oh oh

Tryna get rid of her static  
I got smacked last night, it makes sense tonight  
Well it's time to tell her I've had enoughShe always says she loves me when we're drinkin'  
Won't admit it but it's true  
I think I've had enough of this one  
So baby what's your name where you from what's good with you  
She always says she loves me when we're drinkin'  
Won't admit it but it's true  
I think I've had enough of this one  
So baby what's your name where you from what's good with youTake my hand  
Let's start new  
I wasn't planning on it but I'm likin' you  
And we just met  
But I get you  
You seem like the type that got something to prove  
Come on and dance  
Let's see you move  
This ain't the first time that I noticed you  
Take off those heels  
Let's keep um new  
Now bring that body closer for a fewShe always says she loves me when we're drinkin'  
Won't admit it but it's true  
I think I've had enough of this one  
So baby what's your name where you from what's good with you  
She always says she loves me when we're drinkin'  
Won't admit it but it's true  
I think I've had enough of this one  
So baby what's your name where you from what's good with you
