

# Spotlight

Elton John

Night life, hot spot light  
I've gotta make them dance tonight  
Night life, hot spot light  
I really want to shine tonight Night life, hot spot light  
I gotta steal a heart tonight  
Night life, hot spot light  
I'll show them how to dance tonight I know that the competition's heavy  
I know that these guys are cool  
But I'll show this kid is more than ready  
I sure got somethin' to prove Right now I'm just another guy  
I don't mean nothin' to them  
But when they see me dance  
When they see me dance Night life, hot spot light  
I've gotta make them dance tonight  
Night life, hot spot light  
I really want to shine tonight Night life, hot spot light  
I gotta steal a heart tonight  
Night life, hot spot light  
I'll show them how to dance tonight Right now the music's movin' higher  
I'm feelin', steppin' up the beat  
These shoes will set the floor on fire  
Everybody on your feet You thought that you'd seen the best  
Well, I can tell you, forget the rest  
When you see me dance  
When you see me dance Night life, hot spot light  
I'm gotta make them dance tonight  
Night life, hot spot light  
I'm really gonna shine tonight Night life, hot spot light  
I'm gotta steal a heart tonight  
Night life, hot spot light  
I'll show them how to dance tonight
