

Wall of Water

Mayhem

Pillars supporting sky crumble
Sun moon the stars pour down
Rivers and oceans rush where the earth sinks
Great conflagration quenched by raging flood North and south polars
Counterchange
Screaming world
Turning over
Sky makes war with the earth
Fragments fall down And the darkness that follows Rent
In great
Chasms Tachylite lava from the abyss
Turn into a pillar of vapour
Great heat boil the sea
Death of a continent Enormous surge of water
Wipe out humanity Coming of ice
A cataclysmic flood
Destroys the advanced
Mankind of high tech age Wall of water
Sweep across the earth Wall of water
Fossilize all
