One Night Stand

Sam Gray

I met you in a bar on a Friday night
The way you move your body set my heart alight
Before I got your name, we went out the door
I ask you now my friends
Why it always ends in one night standIs it a danger
Some kind of lever in my head
It's taking me over
Making me climb into your bed
I don't even know her
I don't remember what I'd say
Too much wine, I crossed the lines
I tried to stop myself this timeBut here I go
I... leave a manifestation
On the road
But that's not really me, no
Now I know
I've been living with my heart is broken
Ever since you let go of my hand
My life is one night stand
Oh oh, my life is a one night stand
Oh oh, my life is a one night standAmy was a red hot lover (lover)
Katy want to walk the isle (she want a wedding ring)
Jody want to be my mother (my mother)
Makes me want to run a mile (I wanna run away)
Weekly at my hands
But it always seems to end in one night stand
One night standIs it a danger
Some kind of lever in my head
It's taking me over
Making me climb into your bed
I don't even know her
I don't remember what I'd say
Too much wine, I crossed the lines
I tried to stop myself this timeBut here I go
I... leave a manifestation
On the road
But that's not really me, no
Now I know
I've been living with my heart is broken

Ever since you let go of my hand
My life is one night stand
Oh oh, my life is a one night stand
Oh oh, my life is a one night standHere I go
I never meant to leave a manifestation
On the road
But that's not really me, no
Now I know
I've been living with my heart is broken
Ever since you let go of my hand
My life is one night stand
Oh oh, my life is a one night stand
Oh oh, my life is a one night stand
Oh oh, my life is a one night stand
Ever since you let go of my hand
My life is one night stand
