

Say My Name

Nick'O

You say I wanna be ok
Heyyyy! Don't wanna be away
Babe! Away from my heart
I want you back

I used to scream around
When I was angry
I'm asking baby
Why the hell you left me lonely

When your life gets little dangerous
Don't forget that you are one of I us
Dream enough to see the sunlight
Ooo then you rise up to the sky

You say I wanna be ok
Heyyyy! Don't wanna be away
Babe! Away from my heart
I want you back

I'm in love now
Shake It to the beat now
Shake It to the beat now
Shake It to the beat now

When your life gets little dangerous
Don't forget that you are one of I us
Dream enough to see the sunlight
Ooo then you rise up to the sky

You say I wanna be ok
Heyyyy! Don't wanna be away
Babe! Away from my heart
I want you back

You say...
Heyyy heyyy...
Away babe...
Heart...
I want you back
