

# Break Down the Walls

## Asking Alexandria

Close your eyes and leave all your fears behind  
Close your eyes and follow me until the end  
So if you're hopeless we can pick up the pieces  
If you're broken I can carry the pain Are you with me? Watching the flames rise higher  
Break down the walls, I want it all  
I won't stop until I burn this to the ground  
Scream and shout 'til the lights go out  
I won't stop until I burn this to the ground  
We won't take this, you can't break us  
We won't stop until the world is in our hands  
Break down the walls, I want it all  
I won't stop until I burn this to the ground Don't let go, we carry our torches high  
We've come too far to throw it all away  
Are you with me? Watching the flames rise higher Break down the walls, I want it all  
I won't stop until I burn this to the ground  
Scream and shout 'til the lights go out  
I won't stop until I burn this to the ground  
We won't take this, you can't break us  
We won't stop until the world is in our hands  
Break down the walls, I want it all  
I won't stop until I burn this to the ground I light the match and watch it fall to the ground  
As the embers rise and the smoke fills the air Break down the walls, I want it all  
I won't stop until I burn this to the ground  
Scream and shout 'till the lights go out  
I won't stop until the world is in our hands  
We won't take this, you can't break us  
We won't stop until the world is in our hands  
Break down the walls. I want it all  
I won't stop until I burn this to the ground
