Hazy

Vulpix

Tell me something
I don't already know
This is why I never go out
So leave me alone
I don't want to talk anymore
Leave me alone
I don't want to talk anymore

Slip into my old skin
We are all fools with red eyes
To think that I was jealous
Baby's gunna talk all night
Baby's gunna talk all night

I think I found out
Where I belong
This is why I never go out
I think I'll stay home
Watching movies
I'm feeling too high
to love my family
I don't need love
I don't want to talk anymore
Don't need love
I don't want to talk anymore

Slip into my old skin
We are all fools with red eyes
I think I'm just lazy
All my days are hazy daydreams
All my days are hazy daydreams
All my days are hazy daydreams
