

Rock Bottom

Hailee Steinfeld

What are we fighting for?
Seems like we do it just for fun
In this, this stupid war
We play hard with our plastic guns Breathe deep, bottle it up
So deep until it's all we got
Don't speak, just use your touch
Don't speak before we say too much You hate me now and I feel the same way
You love me now and I feel the same way
We scream and we shout
And make up the same day, same day
