Drown

[Limp Bizkit](#)

It's getting closer to the end, every part of me
And then disaster takes it's toll, and now I'm left with only me
Maybe sorrow plays a role, when you feel unkind
Your abuses matter, standing up forever lost in timeSave me
Save me
Before I drown
Save me
Save me
Before I drownIt's getting closer to the end, I look back and smile
We conquered every single bump in my road, made it all worth while
Just remember how I cared, when it came crashing down
I'd like to toast to all those angels that were always hangin' 'roundSave me
Save me
Before I drown
Save me
Save me
Before I drown
