

Queen B

[Rich Price](#)

Oh honey I've been stuck on you,
Lips so sweet I can taste them still,
Waiting for blossom baby,
Is the hardest part,
Everyday I'm going flower to flower,
Trying to win your heart I know it seems like I'm losing my mind over you, Don't you see if this is crazy
I definitely wanna be losing my senses,
You're the queen b, baby, your majesty,
Don't you know I don't wanna go
Down in flames with anyone other than you,
So lie down next to me, my queen b Oh baby I've been overcome,
This spell that you've got me under,
Waiting for blossom baby,
And I don't know why,
Everynight I'm here at the witching hour,
Where it's you and I, I know it seems like I'm losing my mind over you, Don't you see if this is crazy
I definitely wanna be losing my senses,
You're the queen b, baby, your majesty,
Don't you know I don't wanna go
Down in flames with anyone other than you,
So lie down next to me, my queen b
