Sand

Aaron Lines

There's no place I'd rather be
Than on this blanket here with you
Watching that big red sunset
Into a Caribbean blue
We're sure it's hot down here
Or maybe it's just youBaby let's get sand
In places sand just don't belong
Let's let the ocean waves
Gently serenade us
With a sexy island song
There's no one around
And you keep turning me on and on and on
Baby let's get sand
In places sand just don't belongWell I'm glad we stole that bottle
From a hotel tiki bar
And I'm glad the moon ain't out tonight
So we can hide out in the dark
Let's show off our tan lines
To that endless sea of starsBaby let's get sand
In places sand just don't belong
Let's let the ocean waves
Gently serenade us
With a sexy island song
There's no one around
And you keep turning me on and on and on
Baby let's get sand
In places sand just don't belongInstr.Baby let's get sand
In places sand just don't belong
By tomorrow morning
Baby we'll be boarding
That plane and flyin' home
There's no one around
God you're turning me on and on and on
Baby let's get sand
In places sand just don't belong
Baby let's get sand
In places sand just don't belong
