Sand

Aaron Lines

There's no place I'd rather be
Than on this blanket here with you
Watching that big red sunset
Into a Caribbean blue
We're sure it's hot down here
Or maybe it's just youBaby let's get sand
In places sand just don't belong
Let's let the ocean waves

Gently serenade us

With a sexy island song

There's no one around

And you keep turning me on and on and on

Baby let's get sand

In places sand just don't belongWell I'm glad we stole that bottle

From a hotel tiki bar

And I'm glad the moon ain't out tonight

So we can hide out in the dark

Let's show off our tan lines

To that endless sea of starsBaby let's get sand

In places sand just don't belong

Let's let the ocean waves

Gently serenade us

With a sexy island song

There's no one around

And you keep turning me on and on and on

Baby let's get sand

In places sand just don't belongInstr.Baby let's get sand

In places sand just don't belong

By tomorrow morning

Baby we'll be boarding

That plane and flyin' home

There's no one around

God you're turning me on and on and on

Baby let's get sand

In places sand just don't belong

Baby let's get sand

In places sand just don't belong
