

# Bowels of the Devil

## Body Count

Out one night, yo, just chillin' out with my crew  
I was actin' wild 'cause I didn't have nothin' else better to do  
Got a nine at my waist, stay out my fuckin' face  
You fuck with me, right here'll be your resting place  
Some ol' sucka, yo, he tried to put a move on me  
I shot him in the face, murder in the first degree  
Now I'm sweatin', regrettin', that's not for me  
They got me locked in the fuckin' penitentiary  
Bowels of the devil  
Let me tell you what the muthafucka eats  
Its stomach's filled with lost souls  
Guts made out of steel and concrete  
Bowels of the devil  
Listen close 'cause I've been there before  
And you don't wanna die there  
They call it goin' out the back door  
The back door, the back door, the back door  
Walked in the club, all the ho's gave me the sex look  
They like a nigga like me 'cause I'm a known crook  
And my posse's down, we don't mess around  
You fuck with us, you'll be six feet underground  
That night they got me locked in a row called death  
The governor, that muthafucka wants my last breath  
That's right, homeboy wanted to pull a switch on me  
Up here in this fuckin' penitentiary  
Bowels of the devil  
Let me tell you what that sucka eats  
It's stomach's filled with my homeboy  
Guts made out of steel and concrete  
Bowels of the devil  
Listen close, 'cause I've been there before  
And you don't wanna die there  
They call it goin' out the back door  
The back door, the back door, the back door, yeah  
Bowels of the devil  
Let me tell you what the muthafucka eats  
It's stomach's filled with my homeboy  
Guts made out of steel and concrete  
Bowels of the devil  
Listen close, 'cause I've been there before  
And you don't wanna die there  
They call it goin' out the back door  
Bowels of the devil  
Let me tell you what that sucka eats  
Its stomach's filled with lost souls  
Guts made out of steel and concrete  
Bowels of the devil  
Listen close, 'cause I've been there before  
And you don't wanna die there  
They call it goin' out the back door

The back door, the back door, the back door
