

# You're My Baby Girl

## 2gether

\*Whistles to tune\*

12th of April

We decided it was time

I was feelin good

And you were lookin fine

On the basement floor

With TRL behind

You were lovin me with Carson Daly on your mind

Chorus

You're my baby girl

You know that you are

You're my honey bunch

Yeah, my sweet lucky star

(Sweet lucky star)

So put your hand in mine

I will slap your sweet behind

You're my baby girl

(my baby girl)

E is for Erin, and makin out with you

R is for Romp that's what you like to do (like to do)

I is for Eyes that are smilin back at me

N is for nasty which we do constantly

CHORUS

Hot dogs, hamburgers

With buns that will please

Erin likes the ketchup,

but go easy on the cheese.

I like to look down on her

Naked from above

She's just like Gwyneth Paltrow I'm like Shakespeare in love

Repeat Chorus

You're the one I really want

Repeat Chorus until fade
