

Disappear Here

Bad Suns

[Verse 1]

I really thought you'd be home by now

I guess I was wrong again

I used to think I could go somewhere

Turns out I'm ill-prepared [Verse 2]

I kiss the bend of the canyon road where

I find your ghost again

You found the sky through the moonroof topless

You were so happy then

[Pre-Chorus 1]

I'm right, I'm wrong

I'm everything but sure

My blazing head, my freezing heart

Your five words walk out the door [Chorus]

Would you run after me?

I feel I've stood here once before

Would you run after me?

Would you run or do we disappear?

Oh, disappear here

Would you run after me?

Would you run or do we disappear here? [Verse 3]

Now you say, "I see your face every turn I make

I find no comfort there"

I add, "I hear your voice with every mistake

It's like you're always here" [Pre-Chorus 2]

I'm right, I'm wrong

I'm everything but sure

So we fight until dawn

When five words walk out the door [Chorus]

Would you run after me?

I feel I've stood here once before

Would you run after me?

Would you run or do we disappear?

Oh, disappear here

Would you run after me?

Would you run or do we disappear here? [Bridge]

Go, go

No stay, no go, go

No stay, no go, go

No stay, no go, go[Chorus]
Would you run after me?
I feel I've stood here once before
Would you run after me or disappear here?
Oh, disappear here, disappear here
Oh, disappear here, disappear here
Oh, disappear here, disappear here
Oh, disappear here
