Blue

Sugababes

I guess, I saw through you, I've seen your colors blue
Tryin' to join me when I'm on top observing what I do
But then you weren't around, I was down and in the ground
Do you remember? Shut your mouth, don't wanna hear your sound
Don't you try it, I'm not so forgetful
Your colors are rather dull, it's never gonna be
That picture that you want of being seen
Blue, that's all you do
Play with people's minds, two faced, I wasn't blind
Blue, you are a fool 'cause you lost me
I thought that we were cool
Blue and that is deep, I can't be asked
Blue and that is you, and that's too long
Blue, don't you see your colors wrong?
You've been there far too long, I see it going on
You've been faking, trying to be my friend
When all along you were out there trying to set a trend
I've, I've only got one word for you and every word is true
The colour that suits you is blue
You are sleazy and two faced, I can't believe I missed
What you were all about, trying to use me but your game ran out
You can't take advantage of me, my eyes are open now
Trying to use me to get into my crowd
You're all about the hype, when you see me on TV
Two weeks later talking my name, you're the one to blame
Then you try and dress like me, talk like me, are you crazy?
Why are you trying to claim? For you I've only got one name
Blue, that's all you do
Play with people's minds, two faced, I wasn't blind
Blue, you are a fool 'cause you lost me
I thought that we were cool
Blue and that is deep, I can't be asked
Blue and that is you, and that's too long
Blue, don't you see your colors wrong?
You've been there far too long, I see it going on

You've been faking, trying to be my friend
When all along you were out there trying to set a trend
I've, I've only got one word for you and every word is true

The colour that suits you is blue
You think you're too heavy, trying mess, don't fuck with me
Can't you see that your games run out?
In the beginning all you did was doubt
Didn't know that I'd catch your game
Couldn't fit in my crew anyway
Now if you don't know, I'm agive you a clue
You're lame, you're broke let the fellas take a stroke
Of the skit that you are use the fellas for the cars
Use me for my bra and she thought you would scar
Hell no, I'm selling records, got no time for the haters
Got them shook up with my lyrics when I'm fluffin' with my digits
Wanna hate me, wanna be me, got me vexed, got me so angry
'Cause I'm doing my dream, don't screw so blue
Blue and that is deep, I can't be asked
Blue and that is you, and that's too long
Blue, don't you see your colors wrong?
You've been there far too long, I see it going on
You've been faking, trying to be my friend
When all along you were out there trying to set a trend
I've, I've only got one word for you and every word is true
The colour that suits you is blue
Blue and that is deep, I can't be asked
Blue and that is you, and that's too long
Blue, don't you see your colors wrong?
You've been there far too long, I see it going on
You've been faking, trying to be my friend
When all along you were out there trying to set a trend
I've, I've only got one word for you and every word is true
The color that suits you is blue
