

# Undress Me Now

## Morcheeba

Using your mind, imagine our skin  
Joined at the hip, joined from within  
By using your eyes, you're freezing my frame  
Watching our clothes burst into flames  
Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind, using your mind  
So give me a light, or give me a drink  
Just give me a reason to feel what I think  
Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind  
Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind, losing my mind  
Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
You know how, you know how  
You know how, you know how
