

# Sycophant

## Firebreather

I'm the liberation of intoxication  
The abomination of infatuation  
The epitome of the enemy  
Perfect agony until infinity I'm the indication, not the confirmation  
I'm the inclination, the determination  
I'm a helping hand down in Never land  
I'm a sycophant, I am mega-man I'm the falling rain, I'm your brother Cain  
I'm a shot pain right into your brain  
I'm an accident, I'm a dissident  
The empowerment of the incompetent
