

In My Eyes (Radio Edit)

Milk Inc.

In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me In my eyes
In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me There's a part of me
That I forgot to be
Take a look and see
The light still shines in me Take a look an see
The light still shines in me
Take a look an see
The light still shines in me In my eyes
In my eyes In your arms it seems
You've taken all my drams
Take a look and see
The light still shines in me There's a part of me
That I forgot to be
Take a look and see
The light still shines in me In my eyes, in my eyes
The light still shines in me In my eyes, in my eyes
The light still shines in me In my eyes
In my eyes Take a look and see
The light still shines in me
Take a look and see
The light still shines in me In my eyes
In my eyes Take a look and see
The light still shines in me
Take a look and see
The light still shines in me In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me
