Secret Life

Boymerang

From red giant to supernova
Back to you and me
A cloaked entity within a virtual reality
Mechanised and organised
To me it's plain to see
The hand that's been busy, weavin' fantasy
It's so hard to understand
And often we are blind
But if truth were an ocean
Would it fit in the pool of a human mind?You're all alone
And it doesn't seem quite fair
Why were all left in ignorance
Turnin' to despair?
Philosophy, theology offer us a glimpse
At somethin' more incredible
Than you and ISo call on the secret life
Call on the secret life
Show me the way of life
Bring on the secret lifeEvangelists, Scientologists
And others I won't mention
Offer lessons in codology
To all with good intention
Listen at your peril
Put your soul in detention
Resensitize yourself
To this incredible dimensionWhen you're all alone
And it doesn't seem quite fair
Why were all left in ignorance
Turnin' to despair?
Philosophy, theology offer us a glimpse
At somethin' more incredible
Than you and ISo call on the secret life
Call on the secret life
Show me the way of life
Bring on the secret lifeAnd you're all alone
And it doesn't seem quite fair
Why were all left in ignorance
Turnin' to despair?
Philosophy, theology offer us a glimpse

At somethin' more incredible
Than you and ISo call on the secret life
Call on the secret life
Show me the way of life
Bring on the secret life
Call on the secret life
Call on the secret life
Show me the way of life
Bring on the secret life
Call on the secret life
Call on the secret life
Show me the way of life
Bring on the secret life
