

# Newsreel Babies

[INXS](#)

Venetian blinds are crackling  
I like the noise, it's got texture  
Hit it again when I'm mad  
Close it again when I'm sad With the door closed I'm a king  
No questions, no answers  
Don't like talking without reason  
What's the use if you stop feeling All alone, I'm cynical to the TV  
Newsman's making passes to news lady  
Camera stops, newsreel babies I like to close all the doors  
Make it dark, make it cool  
Come in and talk whatever you like  
I don't mind if it's something new He said, I like to close all the doors  
Make it dark, make it cool  
Come in and talk whatever you like  
I don't mind if it's something new I like to close all the doors  
Make it dark, make it cool  
Come in and talk whatever you like  
I don't mind if it's something new He said, I like to close all the doors  
Make it dark, make it cool  
Come in and talk whatever you like  
I don't mind if it's something new
