

# Forever Lost

## Conjure One

So many times, so many promises  
Heard all the lies, I've heard all the things you've said  
Truth is like a fear, fear of heaven  
Truth's your only fear, fear of heaven When I wanna know the highs and lows  
Give me something  
Forever lost and I try  
Give me something So hard we try, sold on your promises  
Lay it on the line, lay out the trauma there for me  
Truth is like a fear, fear of heaven  
Truth ain't always clear, clear like heaven And I wanna know the highs and lows  
Give me something  
Forever lost and I try  
Give me something Give me something  
Give me something And I wanna know how much I show  
All the wrong things  
Forever lost and I try  
We're after the same things And I wanna know the highs and lows  
Give me something  
Forever lost and I try  
Give me something Give me something
