

Ravenous

Finch

Below the earth lies a serpent
Fire and brimstone
Remove the backbone
Say hello to sunshine
Wake up, you're baptized
The temple is me
Something to believe in
Is something to be
The evidence is all we taste
Under the skin the heart is pumping
What brought you to this?
Meat once was useless
Focus on the fiction
Lose sight of the vision
The temple is me
Something to believe in
Is something to be
The evidence is all we taste
Man makes changes
Man wants everything
Man makes changes
Man wants everything
Everything, everything
