

Here We Are Again

Voodoo Glow Skulls

Some people think they caught us slipping
But we all know that it's not true
Everyone thinks that they're the expert
Always dissin' us and our crew Just because we knew what we want
Doesn't mean that we aren't true
You're the ones that put us here
Now isn't that the fucking truth Go Here we are again
And we'll be here till the end
Here we are again
And we'll be here till the end Here we are again
And we'll be here till the end
Here we are again
And we'll be here till the end We've been climbing up that ladder
And haven't fallen yet
Everyone thinks they know the answer
It's just a matter of opinion Go Here we are again
And we'll be here till the end
Here we are again
And we'll be here till the end Here we are again
And we'll be here till the end
Here we are again
And we'll be here till the end Here we are again
And we'll be here till the end Here we are again
And we'll be here till the end
