

# Roggae

## Phish

The circus is the place for me with bears and clowns and noise  
I love the shiny music that descends from overhead  
Gordan knew the moment when the stars all turned around  
But from that vantage point I frowned If life were easy and not so fast  
I wouldn't think about the past  
I can't forget to turn the earth so both sides  
Get their share of darkness and of light So now I wander over grounds of light and heat and sounds and mist  
Provoking dreams that don't exist  
A circus of light where dreams can take flight  
In the peacefulness dreaming dreams brings If life were easy and not so fast  
I wouldn't think about the past  
The circus is the place for me [Incomprehensible] so fast  
The circus is the place for me [Incomprehensible] so fast  
The circus is the place for me [Incomprehensible] so fast  
The circus is the place for me [Incomprehensible] so fast
