## Cleemann

I was coming down from what I don't know  
The life inside of me in time will set us free  
But will ya wait wait wait for me?  
Will ya wait wait wait for me until the night is coming down?  
Will ya wait wait wait for me? And well I love this mess it makes me feel  
Throughout my life you are my guide Today what a day to go out sit and pray  
Well will ya wait wait wait for me?  
Will ya wait wait wait for me  
Until the night is coming down?  
Will ya wait wait wait for me? And well I love this mess it makes me feel  
Throughout my life you are my guide Love path the way  
Love path the way And well I love this mess it makes me feel  
Throughout my life you are my guide Wait wait wait for me  
Will ya wait wait?
