Are You Ready

Mary Mary

La, la, la, la, la, la, la, la, la, this is what she saidI'm leavin' the ghetto, been plannin' for a while

I'm packin' up my dreams right now

Good morning to the future, good night to the past

It's gonna be a good dayLooking for the good life

The big town and the green lights

On a wing and a prayer and a one way flightAre you ready? Are you ready?

You talk about it everyday

And, yeah, you've got a lot to say butAre you ready? Are you ready?

Gonna take a lot of preparation

To reach your destination soLa, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind rightNo, you can take a flight to Egypt, to Paris or Dubai

Then on to the next place in your mind

But why you wanna go so far

When it won't change who your are?

On [Incomprehensible] or the ghettoLooking for the good life

The big town and green lights

On a wing and a prayer and a one way flightAre you ready? Are you ready?

You talk about it everyday

And, yeah, you've got a lot to say but Are you ready? Are you ready?

Gonna take a lot of preparation

To reach your destination soLa, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind rightOh, doesn't really matter to ya

If you can get away

Don't you know that where your mind is

Is where your gonna stayI suggest you make the best of your time

Just keep God on your mind

And I'm sure, in time you'll be readyAre you ready?

You talk about it everyday

And yeah you've got a lot to say butAre you ready? Are you ready?

It's gon' take a lot of preparation

To reach your destinationLa, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind right

La, la, la, get your mind rightLa, la, get your mind right

La, la, la, get your mind right
La, la, la, get your mind right
La, la, la, get your mind rightYou gotta get it together, get it together
Everybody, everybody, come on now
Get your mind right, eh
